CONFERENCE 2016

6 to 7 October 2016, Hotel Fort Canning

Sponsorship Information

About the conference

Agile Singapore 2016

Build on the success in 2013 and 2014, the third Agile Singapore Conference will take place on the **6 to 7 October 2016** at **Hotel Fort Canning, Singapore**.

Organised by passionate volunteers from the Agile community, this two day conference will bring together over 300 attendees and many international and local experts covering topics like Lean, Security, Technical practices, Big data, UX, DevOps, Management, Product discovery and more.

Agile Singapore aims to be the best software development and organisation agility conference in Singapore and the region.

Expected attendees

300 to 400 ([see attendee profile](#))

Exhibition Hall Opening Hours

- During morning, lunch and afternoon breaks
- Thursday Chill-Out conference reception

Agile development

Why Agile?

Today, with the advancement of technology and rapid changes in the business environment, many companies are turning to Agile practices for ideas to innovate, reduce the cost of change and increase customers and development teams engagement. It is more commonly known nowadays that companies deliver incremental and iterative changes on an ongoing basis, in contrast to months or years in between releases. This is one of the abilities you can gain a competitive advantage by competing on change.

<http://agilemanifesto.org>

What is Agile?

Agile is a manifesto containing four values and twelve principles describing software development approaches that are based on trust and respect each other, promote quicker feedback and technical excellence.

17 software development visionaries authored the Agile Manifesto in 2001 at Snowbird, Utah. Representatives from lightweight practices like eXtreme Programming, Scrum, DSDM, etc. convened this meeting to find common grounds among their methods. Being thought leaders of that time, and some of them continued to be highly influential. These leaders include Kent Beck, Martin Fowler, Dave Thomas, Robert C. Martin and Ken Schwaber.

For more information, refer to [the manifesto](#) and [Agile practices guide](#).
